Missions

As follow-up of our 2023 mission trip to Pakistan we have continued to raise money for setting up more sewing schools (in the meantime 6 sewing centers) which will allow women to start their own business and get out of poverty. We are partnering with Mercy Angels in Pakistan. Already over 110 women graduated. This year we started to build the 7th Sewing school - this time not in a rented place - but as part of a new Community center in the Sheikhpura area.

We look back on a year full of blessings in which we were able to inspire, motivate and activate many children, youth, men and women to make God's kingdom visible in the world around them.

We are grateful to all partners and sponsors for their contribution to make this possible!

Financial statement
